Delivery Time:	45-55 days after received your payment
Packaging Details:	1pc/polybag,10pcs/carton

Company Information

As a SGS certified workwear manufacturer in Wuhan,China,we are specialized in this field more than 10 years.Our mainly market is located in middle east,european and south America.

Competitive Advantage:

Our company uses a brushless motor, compare with the ordinary motor, this motor speed is higher, lower noise, it does not require maintenance, but longer product life span. Self-developed impeller, better quality than ordinary plastic impeller, more stable, more powerful suction. The unique tiered filter design, can effectively purify the toxic and harmful substances in the air, such as formaldehyde, benzene, ammonia, radon gas, sulfur dioxide..etc, and use of low cost.

Compared with the products from foreign countries, our products in terms of the effect is almost the same, but the majority of our products are less than USD2000, so our products are cost-effective, and the use of more affordable cost. The products from abroad mainly purify the viruses and bacteria as the main direction of governance. In China not only to purify viruses, bacteria, but also clean harmful smoke pollution. WHO estimates that there are over 200 million people deaths each

year due to inhalation of indoor and outdoor air pollution in small particles.
